

## **Scrutiny Panels - Update for Overview Committee 20<sup>th</sup> June 2023**

### **Upcoming Scrutiny work**

The next topic to be considered will be a "Review of the Carbon Reduction Plan and associated carbon reduction activity at ELDC".

The panel will be asked to review the Carbon Reduction Plan, to ensure it stays relevant and suitable to deal with the challenges around climate change. It is also considered that the Council have a lot of influence over carbon reduction, whereby it could encourage other organisations to do something similar and the panel has also been asked to look at this in more detail.

A request for Members for both these panels will go out in the next Members Point Brief.
