

JOINT SCRUTINY TASK & FINISH GROUP Project Scoping Template

Topic: Partnership Enviro-Crime Enforcement Contract

Objectives and Key Issues:

In early 2022, a Partnership enviro-crime enforcement contract was signed off and mobilised for the sub region. The contract includes foot patrols and overt surveillance capability for the purpose of detecting environmental offences and taking enforcement action where appropriate against such offences such as littering, dog fouling and fly-tipping.

The contract extended existing provision in Boston whilst bringing in completely new capability and capacity to East Lindsey and South Holland. Contractor performance is managed in each locality by Enviro - crime Liaison Officers and key performance indicators are reported to members through the partnership performance management framework.

An early review of the contractual arrangement together with performance and the benefits being delivered/achieved for the Partnership would be helpful.

Lines of Enquiry:

- Review the key objectives of the enviro crime contract;
- Review any performance monitoring that has taken place;
- Review benefits and achievements to date across the Partnership;
- Consider any areas for improvement;

Standard Areas to Consider

Relationship with Annual Delivery Plan:

Financial Implications: Value for Money

Witnesses

Internal: Relevant portfolio holder for each partner Council

External: Kingdom LAS Ltd

Resources

Liaison Officer: Christian Allen

Required officer expertise: Donna Hall, Matt Fisher, David Dodds, Jen Moore, Jameela Rawlinson, Jeremy Dodds

Timescale

Start date: March 2024

End date: May 2024
