At the year end the movement in fair value of the fund gets charged to the revenue account. There is currently a statutory override which has been extended to 31 March 2025 which allows for these movements in fair value on pooled investments funds to be reversed out through the MIRS so there is no bottom line impact.

Table 11 - Investment Income Received Against Budget and Forecast Outturn

Treasury investments achieved an average rate of 4.42% compared to the benchmark average 3-month Sterling Overnight Index Average (SONIA) rate of 4.65%. InvestEL loans achieved a rate of 4.00% and property fund investments achieved an average rate of 4.14%. The combined rate achieved on all investments was 4.34%.

The higher levels of investment income compared to the original budget is due to increased balances available for investment resulting from additional grant money being received and recent rises in interest rates on new investments.

External Borrowing

The Council has £20m of external borrowing for property funds as shown in **Table 12** below.

Table 12 – External Borrowing

Entity	Amount (£)	Start Date	Maturity Date	Rate
Public Works Loan Board	10,000,000	10/12/2018	10/12/2068	2.54%
Public Works Loan Board	10,000,000	13/12/2018	13/12/2068	2.39%
TOTAL	20,000,000			2.465% Average

Fixed interest costs for 2023/24 on this borrowing are £493K.

As at the 30 June 2023, the premature repayment discount on these loans was £6,653,330. Under accounting rules, this discount would need to be credited to revenue over a period of 10 years.

Public Works Loan Board (PWLB) Borrowing Rates

During the first quarter of the financial year PWLB borrowing rates have been on a gradual rising trend due to stubborn inflation levels and expectations for further base rate rises. The 50 year PWLB certainty rate was 4.95% on 30 June 2023.

Graph 1 – PWLB Borrowing Rates

Section 2.5 – Debt Collection

A review of debts is undertaken every month, and monitoring is reported against targets. In line with the new financial procedure limits there are no debts in excess of £50,000 requiring Executive Board approval for write off. Debts below this level have been submitted to the s151 Officer and Portfolio Holder for write off.

An analysis of the sundry debts the Council held as at **30 June 2023** is show in **Table 13**.

Note: This does not include details of invoice amounts (£935,982) that are not yet due.

2.6 Business Rates and Council Tax Collection

There is uncertainty over the ongoing impact on collection and recovery as a result of the knock-on effect of the pandemic, and now the cost of living and energy cost crises. In recognition, we continue to remain prudent in setting the bad debt provision in this area.

A programme of statutory recovery activity is in place throughout the year.

Council Tax Support Scheme (CTS)

Following the statutory annual review during 2022/23, the 2023/24 scheme remains unchanged from the previous year, allowing for national up-ratings.

Council Tax – Quarter 1 In-Year Collection

The annual collectable debit at 30 June 2023 was £96.1m with a net collection rate of 26.89% (26.86% at 30 June 2022).

Business Rates – Quarter 1 In-Year Collection

The annual collectable debit at 30 June was £36.7m with a net collection rate of 36.54% (35.61% % at 30 June 2022).
