<p>Commentary: A high percentage of cases that are registered as homeless could have been started at prevention stage if case officers were able to provide a faster response to customers. Processes are to be changed to enable this to happen. The service has also seen an increase in cases compared to the previous quarter which has put additional pressure on the service. The service is also seeing a high number of evictions by family and friends and as from late September is trialling new options to try and obtain additional time to prevent homelessness. At present it is too early to gauge whether this will be successful.</p>

Commentary: Q2 - 96.15%. Continually maintained high levels of performance through Q2. Improvement in Year To Date of 5.23% from Q1. Continuation of call back in queue utilised in Q2 with 1000 (5.78% of calls). Through system insight reporting 51.31% customers have digital capabilities and 67.70% of enquires logged did not have digital or self-service options. Q2 saw 10.15% chase enquires for ELDC Services, and an answer rate off 22.26% when Customer Contact are trying to transfer calls/seek advice from the back-office. This reported data will be shared with services in more detail, to support the reduction of avoidable contact. Election contacts increased by 400% in September due to annual canvass.

<p>Commentary: We have seen a growing trend in the last quarter of premises who have seen a significant reduction in their rating. This has led to the 1/2 percentage point drop. We are hopeful that as a result of sustained education, engagement and enforcement of the premises with issues we can see an improvement.</p>

Commentary: Due to the impact of the revaluation and changes in reliefs that took effect from 1 April 2023, previous years monthly performance is no longer comparable and therefore forecasting is challenging. In order to forecast performance for the remainder of the year we took into account current performance and amounts that fall due and payable from ratepayers over the remainder of the financial year. This will be reviewed again to take in to account recent amendments to the local rating list received and processed during September. We continue to take recovery action in line with our robust procedures but anticipate ongoing collection and recovery challenges given the current economic climate.

--	--------	--------	--------	--------	--------	--------	--	--

Commentary: We are currently 1.12% lower than September 2022. Our profiled targets for the remainder of the year are based on last year's actual performance. Most of the shortfall (0.7%) relates to an increase in the amounts due in the second half of the year both through customers statutory instalments and pre-enforcement payment arrangements. We also have a slight increase (0.2%) in the amount currently subject to post court enforcement action compared to the same period last financial year We anticipate ongoing collection and recovery challenges given the current economic climate.

Combined HB/CTS Speed of Processing – Changes	16.54	14.04	8.47	13.94	14.64	12		
---	-------	-------	------	-------	-------	----	--	--

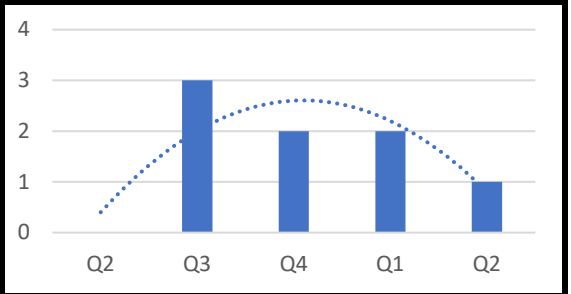

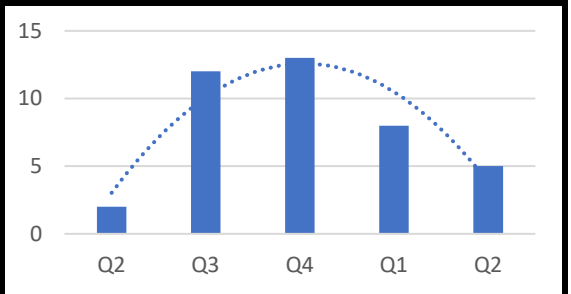

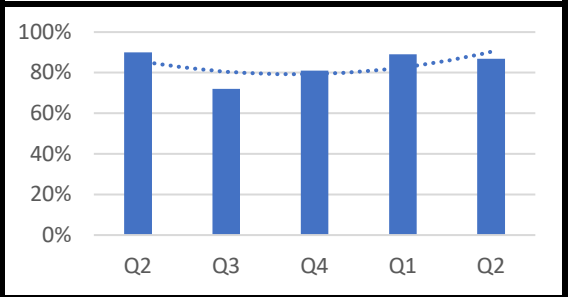

Commentary: In September high volumes of work, and our focus on clearing the oldest work continued to impact upon the speed of processing. In relation to Housing Benefit only claims, speed of processing in September was 14.09 days. During Q2, the focus has been on reducing outstanding workload, in particular the oldest work. At the same time we continue to train and develop new staff ensuring future resilience.

Commentary: Despite an increase in new claims, most likely due to the current economic climate, it is pleasing to report an improvement in August. We continue to deal with high volumes of work, and as we continue to make progress clearing the oldest work this will have an impact on speed of processing. In relation to Housing Benefit only claims, speed of processing in August was 19.53 days.

Q2	38.85%																			

Commentary: Marginally beyond target, as a result of clearance of some older applications.

--	--------	--------	--------	--------	--------	--------	--	--

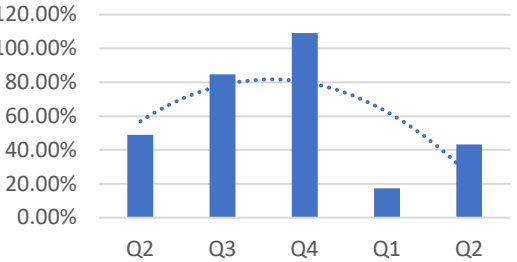

Commentary: The occupancy continues to improve at MBC, increasing from 78% in Q2 to 81% in Q2. We will be continuing to promote the centre to look to reach target by the end of Q4.

Percentage of car parking income received against agreed annual budget – cumulative figure to end of successive quarters.	97.00%	93.00%	95.00%	88.00%	88.65%	100.00%		

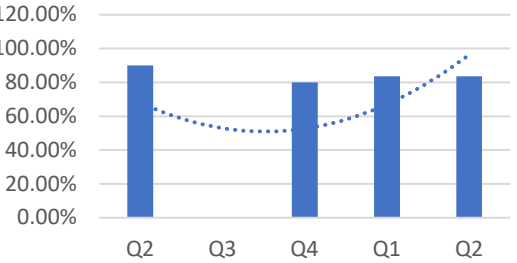

Commentary: Whilst the use of ELDCs car parking offer year to end at Q2 suggests a forecast year end shortfall, the income collected in the first six months of 2023/24 is in line with the income collected for the same period in 2022/23. A review of fees and charges will not be effected in year so forecast income to year end will almost certainly be below target income set for 2023/24. There are no underlying matters affecting take up and income, ie there have been no significant staffing issues, no significant equipment failures and no significant contract issues affecting income.

Commentary: In addition to 6 sales onto Park, IEL have facilitated 34 'bring ons' 1 January 2023 to end of Q2. These bring ons will result in 34 additional pitch fee payments to ELDC from 1 January 2024 so whilst not a 'sale', each bring on generates a unit of annual revenue for the Council.
