

South and East Community Lottery

As the South and East Community Lottery approaches its one year anniversary, weekly sales tickets are now over 1160 per week. We are able to support 83 good causes each week and the total raised for good causes within the partnership currently stands at £31,897.90.

Social Isolation Grant

37 Groups have been supported by our social isolation grant – allowing groups to apply for up to £2000 where they support residents who are tackling social isolation.

Community Leaders

The first community Leaders session in East Lindsey was held in October. There was a really positive start to the sessions, through these sessions we hope to develop and strengthen our relationship with the community and voluntary sector and also improve our understanding of the community.

Future Leaders Programme

The Future Leaders Programme was shortlisted for an LGC Workforce Award under the category 'Best Retention Strategy'

The presentation recognised our innovation, results for our people and the results for the organisation as key reasons why our programme stood out. This included 96% of those surveyed stating the programme had been beneficial for their development, and 64% seeing a promotion of change in responsibility since completing. 100% would recommend the Partnership as a place to work, and 86% felt the programme had supported to retain them at the Partnership. Whilst we didn't win, missing out to Nottingham City Council, it was excellent recognition of the impact of the programme for the Partnership.
