7. List of documents submitted for consideration in relation to the matter in respect of which the decision is to be made: None.

8. Where the documents are held and where they can be obtained from (except exempt items) when they become available: n/a

9. The reason for the decision and other alternative options considered and rejected: A grant award was successfully secured following a funding bid to the East Coast Community Fund. The award requires a match fund to be made and will therefore required a drawdown of £4,306.63 from the Climate Change reserve. Similar structures at locations such as Cleethorpes, Filey and South Shields have all helped to put the resorts on the map and generated positive publicity for the area. If the Sutton on Sea installation is a success, this could be used as a pilot for securing further funding and rolling out additional features along the wider coastline.

10. Declaration of any conflicts of interest of the decision making body or the individual: None

11. Provide a note of any subsequent dispensations granted by the Head of Paid service: None

12. Financial Implications of this Decision:-

Estimated cost: Match funding is a condition of the grant award and a contribution of £4,306.63 is required which can be taken from the Climate Change reserve. This small contribution will enable the drawdown of the additional £21,493 grant award.

Funded from: East Coast Community Fund, administered by Grantscape.
