

Working in Partnership with the Voluntary and Community Sector

Voluntary and Community Sector (VCS) organisations offer huge amounts to local areas, through the services they provide, the wealth they generate, and the people they connect, engage, and empower. At a time of rising pressure on services and tough financial constraints, it is more important than ever that councils can harness their local strengths and build successful partnerships with their local VCS. Through the Community Leadership team, we aim for a strong relationship between the local council and local Voluntary and Community sector to ensure we have connected, engaged and empowered communities.

The council continue to work with and support VCS organisations through commissioning their services and/or offering grants. Moving forward we will continue to monitor and evaluate this work to ensure it meets the aims and objectives of the community of East Lindsey and the wider South and East Lincolnshire Council Partnership area.

Through UK Shared Prosperity Funding the South and East Lincolnshire Councils Partnership has been successful in funding a Volunteer Co-ordinator that will support volunteers within the organisation. Becoming a volunteer can be very rewarding for those participating. People can gain valuable skills and experience. Equally volunteers can make a huge difference to our organisation whilst strengthening our ties to the community. This project is in its infancy and further details will be forthcoming.
