Summary

This is the quarterly report covering performance and risk monitoring information for Quarter 1 of 2024/25 (as at the end of June 2024).

Recommendations

1. That the Overview Committee considers and notes the report

Reasons for Recommendations

To monitor delivery of performance and governance objectives and to support future planning and decision making within the Council.

Other Options Considered

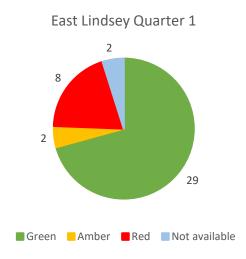

Alternative reporting arrangements.

1. Background

- 1.1 A joint performance management framework was agreed across the South & East Lincolnshire Councils Partnership for 2024/25 to support the delivery of services. Key Performance Indicators (KPIs) have been agreed to capture performance against the strategic priorities of the Partnership and the individual Councils.
- 1.2 This report presents the information for East Lindsey District Council for Quarter 1 of 2024/25 (as at the end of June 2024).

2. Performance (Appendices 1 and 2)

- 2.1 In total there are 114 KPIs for East Lindsey District Council. These are set out by priority in Appendices 1 and 2 following the adoption of the Sub-regional Strategy.
- 2.2 There are 41 targeted indicators where performance is within the direct control of the Council, with past data or comparisons available on which to base those targets. Indicators were developed to stretch performance in teams. Green indicators are on target, amber indicators are within tolerance and red indicators are off target. Commentary is provided in Appendix 1 for red indicators and for two indicators which are not available.

- 2.3 Shading has been added to the past quarters' data where possible, to show whether it was on target previously, to help provide more visual context for direction of travel. The shading is deliberately more muted for past data to keep the focus on the current performance. Where targets have changed since the previous year, this has been noted in the commentary, otherwise targets are the same.
- 2.4 There are also 73 trend indicators, which show context for policy decisions and resource allocation, set out in Appendix 2. The trend indicators have been reviewed to consider if any can become targeted measures if past data is now available. No changes are proposed at this time.
- 2.5 Additional commentary has been added to the workforce measures as requested.
 Also, the staff turnover KPI now relates to voluntary turnover, with the traditional reported figure and explanation in the commentary. Both staff turnover and sickness

- absence trend measures have changed to quarterly rather than year to date figures for improved clarity.
- 2.6 Graphs have been removed from Appendices 1 and 2 where there is no previous data to report or where all performance is zero, to avoid confusion. Some of the OFLOG measures are still to be confirmed so are not yet available for Q1.

3. Risk management (Appendix 3)

- 3.1 The strategic risk register has been reviewed for Q1, as at the end of June 2024.
- 3.2 A summary of the risks and scores are set out in the table below, with full details in Appendix 3.

- 3.3 As set out in the risk policy, we use the 4Ts of risk control:
 - Terminate rarely, we may be able to stop doing the activity altogether and thereby remove the risk altogether
 - Tolerate accept the risk and live with it because it is within our risk appetite and the cost of mitigating action would outweigh the benefits
 - Transfer move all or part of the risk to a third party or through insurance; however, sometimes accountability remains, particularly with a Council, so caution is advised
 - Treat take action to control the likelihood and/or impact and set a target to move the risk to within the risk appetite once the action has been implemented
- 3.4 The strategic risks for the Partnership have also been reviewed for Q1, as at the end of June 2024.
- 3.5 A summary of the Partnership risks and scores are set out in the table below, with full details in Appendix 3.
