ELDC04	Lincshore flood defence	Risk due to the uncertainty of the future Lincshore flood defence scheme	AD: Planning and Strategic Infrastructure	The potential for coastal flooding (sea inundation) remains a real threat along the coast, limiting development (growth) opportunities. Recent changes in government policy in regard to partnership funding for flood defence schemes has left future prospects for the Lincshore flood defence scheme uncertain.	Without an agreed long term solution there is a concern that there may be a more significant flood incident in the future that would impact on the council's ability to respond; and the level of risk may impact on the long term economic health of the district and the safety of communities.	The Council is an active member of the Lincolnshire Resilience Forum and Lincolnshire Flood and Drainage Management Strategy Board. The Council will continue to work with partners, local MPS and the government to identify a solution to the future funding needs of the Lincshore scheme. The Council is also undertaking a number of activities including its Strategic Flood Risk Assessment to support and inform the Local Plan moving forward. Equally, the Council is part of a number of groups, including a collaborative approach with the Environment Agency, to seek to identify the challenges and opportunities for the coast in the future.	2	5	High (10)	Tolerate	Continued parmership working	2	5	High (10)			
ELDCOS	Business continuity	Risk around business continuity and recovery in the event of a major incident or event	AD: Regulatory	The Council has a central role to play in the response to a major incident or event in the community and the subsequent recovery phase. The risk of flooding, both coastal and inland is increasingly recognised as one of the most significant and likely' events that the Council will need to help with recovery. There are also internal incident and events which could impact on the Council's operations directly (e.g. cyber-attack, IT infrastructure failure, building fire).	In the immediate response phase to an emergency in the District, the "Blue Light" services will take the lead with the Council taking the lead role in the subsequent recovery phase. There could be significant impact on service delivery and potentially Council finances.	The establishment of the S&ELCP has increased the resilience and capability of the 3 partner councils. Resources can be more easily shared across the sub-regions and procedures and policies are being joined up to make our response to and recovery from an incident more efficient and effective. A strategic group meets regularly, including representation from PSPS, with minutes and actions reported to LT Governance for awareness. Staff across the S&ELCP are regularly trained at both Silver and Gold command in order to take a full part in a Lincolnshire-wide emergency response and support our partners in the sub region. All three councils are members of the Lincolnshire Resilience Forum, enabling access to expertise held by LCC whilst retaining staff, resources and expertise in each sovereign council within an EP&BC structure across the Partnership. Senior staff within the Councils are involved in training exercises delivered by the LRF. Regular 'live' training exercises are coordinated at County level to maximise preparedness in each council and across the sub region. Each authority has a meregency Plan & Business Continuity Plan in place in order that service delivery can be prioritised and maintained at such times. A joint emergency and business continuity plan was approved in 2021 for ELDC and BBC to improve resilience and capability with plans for a more joined up approach across the sub region with the advent of the S&ELCP. Public Sector Partnership Services (PSPS) and Magna Vitae have Business Continuity Plans in place. Work is underway in 2023 to update and align all BC plans across the Partnership. It is anticipated that this work should be completed by the end of Quarter 4 2023/24. The establishment of the S&ELCP has increased the resilience and capability of the 3 partner councils. ELDC06	Health and Safety	Risk of failure to comply with Health and Safety requirements	AD: Regulatory	The Council has a clear responsibility to both staff and recipients of services under Health and Safety legislation and needs to effectively manage its responsibilities.	There can be consequences to the organisation's finances and reputation relating to non-compliance of health and safety requirements. There is also the risk of harm to individuals.	across the sub-region and procedures and policies are being joined up to provide a more efficient and effective approach towards H&S compliance. The partner Councils receive specialist Health and Safety advice from Public Sector Partnership Services who support the Partnership Health and Safety Governance Group (chaired by the Assistant Director – Regulatory) and the Staff Health and Safety Forum. Both operate under agreed terms of reference and feed into the LT – Governance. LT Governance Group and the staff Forum. Policies and procedures are agreed at the Governance Group and the staff Forum. Policies and procedures are agreed at the Governance Group and referred to LT Governance for information. Health and Safety is included within Internal Audit's annual audit plan. ELDC07	Local Plan	Risk of the Local Plan not delivering economic growth & prosperity	AD: Planning and Strategic Infrastructure	The Local Plan sets the framework for economic growth in the district 2011-2036. The strategy restricts growth on the coast around towns such as Skegness and Mablethorpe and makes limited allocations of employment land across East Lindsey. This gives rise to a real risk that economic growth and prosperity will be contained if existing commitments are not delivered in the right place, in the right quantum at the right time.	Local people will not have access to the home and jobs they need. Prosperity will be reduced.	The Local Plan is monitored regularly with an Annual Report produced, in addition, measures such as the 5-Year Housing Land Supply and Housing Delivery Test are good indicators as to the delivery of the Local Plan. Decisions are taken against the plan, however, they do not preclude other developments from coming forward as appropriate for consideration. Appeal decisions also inform our understanding of Plan performance. There is a statutory requirement for a 5-year review of the Local Plan (after 2024). There is presently no indication that the plan is not performing as required (even when giving regard to Covid and Brexit effects), and it is considered that the plan is sufficient to support the growth and prosperity of the district.	3	3	Medium (9)	Tolerate	Continued monitoring and reporting	3	3	Medium (9)			
ELDCO8	Safeguarding	Risk of failure to deliver safeguarding children, young people and vulnerable adults responsibilities	AD: Wellbeing & Community Leadership	The Council has statutory duties in relation to safeguarding. Section 11 of the Children Act requires a regular audit to assess our capacity to respond appropriately and identify improvements needed. The Council also has statutory duties to safeguard individuals and communities in relation to the Care Act 2014, the Mental Capacity Act 2005, Modern Slavery Act 2015 and in relation to Prevent.	In relation to non-compliance there are potentially significant reputational risks to the Council	Lead Officer and Deputies identified, with the Portfolio Holder for Communities overseeing this area. The Safeguarding Policy and Procedures have been reviewed. The lead officer liaises regularly with other District Councils and external agencies. Team leaders identify relevant actions and staff training in their service plans. Human Resources supports safer recruitment (including DBS checks) and training for officers, volunteers and councillors. An incident reporting mechanism is in place to monitor the Council's responses. Wellbeing Lincs Service has provided a countywide response and support service for vulnerable and clinically vulnerable residents. Safeguarding was a key focus of a report to LCC during the Covid response. The District Councils and County Council continue to meet to collaborate and discuss matters around safeguarding policy and procedures.	2	4	Medium (8)	Tolerate	Continued monitoring, reporting and training	2	4	Medium (8)			
ELDC09	Information	Risk of failure to comply with Information Governance and Management requirements	AD: Governance and Monitoring Officer	Increased understanding of the public's right to information means that we have to be fully aware of our legal duties. The increase in data also means we have to be able to manage information more effectively, including reducing the amount of unnecessary data held.	Data protection breaches which can result in significant fines from the Information Commissioner's Office.	All employees receive annual online training in data protection. Arrangements are in place to ensure that the organisation is compliant with the new General Data Protection Regulation (GDPR) requirement, including lead staff attending training. PSPs also have a lead officer overseeing compliance. An experienced Data Protection Officer is in place who monitors training, compliance and development of policy; also, full assessment of any breaches, providing recommendations for continual improvement. ELDC10	Treasury and capital	Risk around attainment of revenue through Treasury Management policies and commercially driven capital expenditure	DCX Corporate Development and \$151	At any time the Council has significant sums of money lodged with financial institutions to cover both day to day costs and long term investments. It is important that policies are clear and unambiguous in relation to the placing and management of such investments to safeguard public money. Uncertain national and international economic conditions may affect the rating of financial institutions and hence their perceived integrity as a safe haven for public money can be affected. Commercial property performance may vary through differing market conditions and valuations changes are likely.	Investment presents both positive (opportunity) and negative risks the latter of which is a loss of finance to support Council services and loss of finance which is being held on behalf of other organisations.	A long term strategy is in place, supported by strong internal awareness and governance and external professional advice. The Council's Investment Policy and Strategy are kept under constant review with regular updates to Management Team, Portfolio Holder and Executive Board. A preadsheet has been created and a considerable amount of time has been spent updating it ready so we can add to the new database of Technology Forge. The restructure has taken place so we now have the SOPM (Strategic & Operational Property Manager) for budget management, meetings job criteria and Strategic Property acquisitions and sales. This role encompasses the day to day running of the asset team. The Estates Officer for lease arrangements, new tenants, site management and all tenant referrals including day to day issues. Repairs officer - For day to day repairs and allocation of work required in conjunction with liaison via the Estates Officer and SOPM. The Project Manager role is also now defined and runs all medium and major projects for the team. The BSO (Business Support Officer) is a new temporary role which monitors jobs coming in and is also a hands-on role that ultimately saves the Council budget money by undertaking jobs ourselves. ELDC17	Implementation of the Environment Act 2021	This new legislation will have an impact on the way that waste services are delivered, and will require operational changes. Changing service delivery will require financial support, and at this stage it is unclear whether additional budget will be made available centrally.		The Environment Act allows the UK to enshrine better environmental protection into law. It provides the Government with powers to set new binding targets, including for air quality, water, biodiversity, and waste reduction. This will change and impact the way environmental services are currently delivered	Failure to comply with legislation Negative effect on climate both locally and globally	The Lincolnshire authorities comprising the Lincolnshire Waste Partnership are working together to identify the impact of the Environment Act across the county. ELDC18	Introduction of Extended Producer Responsibility	The UK is undergoing a major overhaul of packaging producer responsibility legislation, which will transform the way local authorities receive funding for household waste collections. This risk covers the changes this legislation will bring which will be positive but also important to ensure we as an organisation are prepared for these changes.		Reforms seek to introduce principles of extended producer responsibility (EPR) to the UK's packaging waste management sector and will, primarily, see the cost burden of collecting householders' packaging waste shift from local taxpayers to the producers of packaged products	Funding Gaps Negative Press Budget implications	Officers closely follows all policy and practice changes being implemented by the Government and has responded to relevant consultations. damaged

vehicle need replacing

Multiple people receive minor injuries Individual serious injury

Treatment (4Ts)

Health and Safety risk

Terminate – rarely, we may be able to stop doing the activity altogether and thereby remove the risk altogether

damaged or needing replacement

People engaging in hazardous

activities without awareness

Tolerate – accept the risk and live with it because it is within our risk appetite and the cost of mitigating action would outweigh the benefits

Transfer – move all or part of the risk to a third party or through insurance; however, sometimes accountability still remains, particularly with a Council, so caution is advised

Individual receives minor injuries

Treat - take action to control the likelihood and/or impact and set a target to move the risk to within the risk appetite once the action has been implemented

replacement
