<p>Commentary: Turnaround times have increased this quarter due to staff absence and un-anticipated increase in searches. Plans were put in place immediately to deal with this which have been effective in bringing the turnaround times down. Resilience in this service area is being addressed through the service review.</p>

---	-----	--------	--------	--------	--------	--------	--------	--	--

Commentary: Whilst collection is 2.75% below target this is directly attributable to i) a large increase in the rateable value of an hereditament, creating a new debit balance of £864k which will be due over the remainder of the year, and ii) as a result of the addition of a large hereditament into the list in the summer which is actively being pursued for payment.

Commentary: Q2 target not met by 4.86 %. Calls received (17778), an increase of 1% vs Q2 23/24, with 999 successful call backs. Q2 has seen a total of 1163 visits. An increase in call duration of 20 seconds vs Q2 23/24. Low service answer rates, sitting at 28% alongside a high level of chase calls (10%) are attributing to the increase in call durations and customer frustrations. Projects and initiatives implemented with little notice for CC, affecting adequate preparation for effective delivery and impacting the customer experience (public consultations). Customer abandonment rate shows 50% calls are being dropped within 2 minutes (75% within 4 minutes). Call routing messages have been changed to actively promote call back at the earliest opportunity, complimented by a social media campaign. Mandatory effective contact handling training rolled out, to ensure we remain efficient in managing calls effectively, noting continued growth of contact handling times. Web chat has seen 1718 contacts, since its implementation, with numbers at the end of Q2 starting to grow further, as there continues to be appetite for digital communication channels.

<p>Commentary: Q2 target not met by 7.64%. Calls received (14104) an increase of 12% vs Quarter 2 23/24, successful call backs (2484). Q2 has seen a total of 1163 visits . An increase in call duration of 86 seconds vs Q2 last year. Higher levels of recovery, along with removal of winter fuel payments for customers expected to provide ongoing pressures in Q3. Customer abandonment rate shows 53% calls being dropped within 240 seconds. Call routing messages have been changed to actively promote call back at the earliest opportunity, complimented by a social media campaign. Mandatory effective contact handling training rolled out, to ensure we remain efficient in managing calls effectively, noting continued growth of contact handling times. Web chat has seen 760 contacts, since its implementation, with numbers at the end of Q2 starting to grow further, as there continues to be appetite for digital communication channels.</p>

Commentary: Voluntary turnover is singularly people who have resigned, either to work elsewhere, retire or simply leave employment at this organisation. This also includes those who have resigned from a role at one council within the Partnership to take up another post within this same Partnership. Voluntary Turnover Q2 24/25 1.1% A reduction of 1.46% on total turnover compared to the previous month. Main reasons for resignation were career change and career development. PSPS are working with the Council to identify how internal opportunities can be promoted more effectively.

Commentary: An increase of 0.9 days lost per FTE, however this is still lower than sickness levels in Q2 23/24. Mental ill health continues to be the main reason for absence, the large majority designated non-work related. HR continue to work closely with managers to support them in managing absence. Along with mental health, back problems, injury and post operative recovery are key reasons for absence. The council are exploring what additional support can be provided for those who are unable to work because of physical injury.
