

## Report of the Chairman of Executive Board

### **Action No. 27(b) – Update on National Grid**

Response provided by the Nationally Significant Infrastructure Projects Manager

*Flood Zones for the route of the pylons for G to W Project are shown within the figures of the PEIR. For ELDC the relevant route sections are 2 (part of, the first half is within North Lincolnshire area), 3 (full section) and 4 (part of, the second half extends into BBC).*

*If Members look at Figure 6.1 and scroll through to the relevant sheet numbers for the location, that they wish to see, within:*
